

# LED LANTERN

WITH POWER BANK

**1** High brightness for lighting

**2** Large capacity power bank 5200mAh

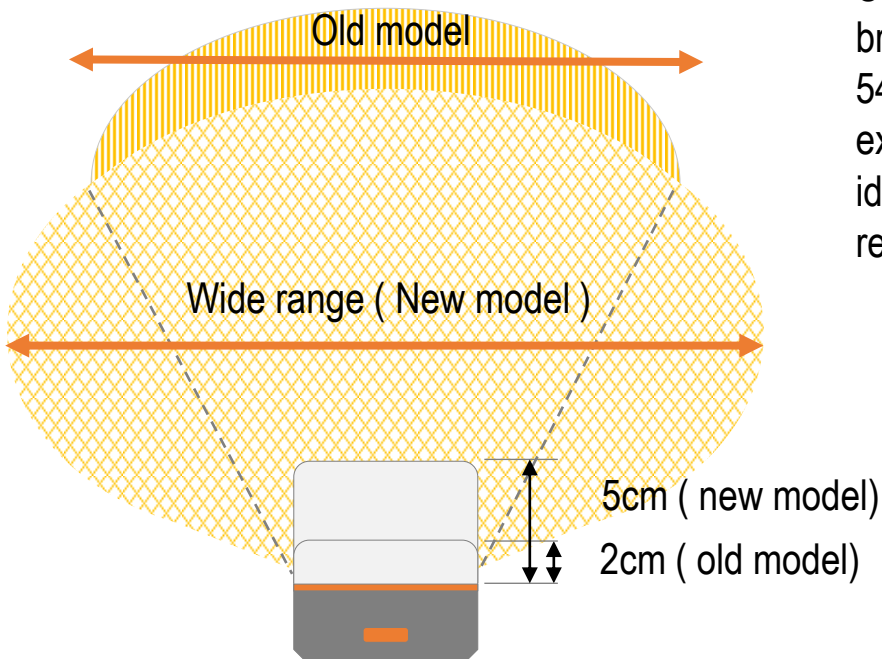

**3** Charge your device from USB port

## High brightness with extended working time

- High Brightness Mode provides well-lit illumination, reaching a maximum of 150 Lumens.
- Can be hung in anywhere you need.
- High Brightness Mode lasts for approximately 9 hours, Medium Mode for about 30 hours, and Low Mode for approximately 100 hours.

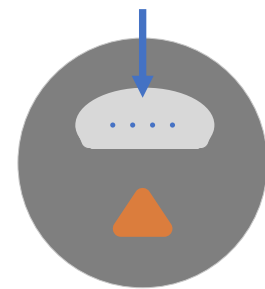

## An ideal power bank with ample capacity

- Extended illumination time thanks to the 5200mAh power bank.
- Features DC 5V/2.0A fast charging.
- Ideal for studying and a reliable power source for charging phones or other devices.

Unlike the previous model with lower brightness, the new model features a 54% increase in light brightness. Its expanded brightness provides an ideal environment for kids to study or read.
